### Review

-----

*"We did the half-day rafting session with our two teenage daughters (aged 19 and 15). Not being a strong swimmer, I was quite nervous beforehand. Our Guide (and one of the owners of Soca Rider) Casi, was absolutely brilliant. He is very safety conscious and made sure we were fully prepared with correct kit and instructions before we set off down the river. He is so well informed about the area and we stopped several times so that he could explain about the surrounding caves, waterfalls, mountains, etc. Casi also made it great fun ensuring that everyone on the boat got a good soaking! The trip is not at all rushed and Casi genuinely wants to make sure you have a great time and get your money's worth. We enjoyed it so much (and I felt so confident having him as a Guide) that we did another half-day rafting session with Casi two days later! It was one of the highlights of our two week tour of Slovenia.*

*I must also mention Petra (co-owner) who drove us to and from the Soca River and ensured Casi had the camera and took plenty of photos. She sent us a link to download these photos before we had even returned from our holiday! This is something they do for free and something I'm sure other companies would charge for.*

*Safety, customer service and the personal touch are definitely priorities for this small company and we definitely recommend them."*

*" Highlight of our trip! Soca Rider was the perfect company for our first experience with white water rafting. My boyfriend and I tried whitewater rafting in July during our trip to Slovenia. We were making the reservation couple of weeks in advance from Qatar and Petra turned out to be very responsive and helpful in advising what activity is appropriate for us. On the ground, Soca Rider team carefully explained the safety rules and were very motivating and a lot of fun while on the river. I would recommend it to everyone!"*
